PROFESSIONAL SUMMARY

Machine Learning and Data Science graduate skilled in Python, SQL, Scikit-learn, Pandas, NumPy, NLP, BERT, Data Analysis, and Predictive Modeling. Developed end-to-end ML projects achieving up to 95% accuracy using Logistic Regression, Decision Trees, K-Means, and DBSCAN algorithms. Proficient in Exploratory Data Analysis, Feature Engineering, and Data Visualization. Seeking Data Analyst / Machine Learning Engineer / Data Science fresher roles.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS
ML / AI Algorithms: Logistic Regression, Linear Regression, Decision Trees, Random Forest, K-Means Clustering, DBSCAN, BERT
Data Science Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
NLP & Embeddings: BERT-based NER, Word2Vec, BytemLSTM Embeddings, TF-IDF Vectorization
Data Science Skills: EDA, Feature Engineering, Model Evaluation, Data Visualization, Data Masking & Encryption
Tools & Platforms: Jupyter Notebook, Git, GitHub, VS Code, Power BI (Basic)
Other Concepts: Deep Learning (Fundamentals), Statistics, Unsupervised Learning, Machine Learning

EDUCATION

B.E. – Information Technology 2022 – 2026 (Completed)
Pillai College of Engineering, New Panvel | CGPA: 6.78

HSC (Class XII) June 2021 – June 2022
Private College, Pen | Percentage: 63.83%

SSC (Class X) May 2019 – May 2020
Sumtibai Vinayak Deo Vidhyalaya | Percentage: 81.60%

PROJECTS

PII Detection on Social Media using NLP & Unsupervised Learning (C-PIIM)
Technologies: Python, Pandas, NumPy, Scikit-learn, NLP, BERT, Word2Vec, TF-IDF, DBSCAN, K-Means, Data Masking

- Designed and developed C-PIIM, an unsupervised learning model for real-time PII detection on social media withoutlabeled training data.
- Applied NLP feature extraction using TF-IDF, Word2Vec, and BERT-based Named Entity Recognition (NER) toprocess unstructured text at scale.
- Leveraged DBSCAN and K-Means clustering algorithms to identify PII patterns across diverse social media content.
- Implemented AES encryption pipelines for secure handling of sensitive user information.

Logistic Regression Model – Liability Customer Personal Loan Prediction
Technologies: Python, Pandas, NumPy, Scikit-learn, Logistic Regression, EDA, Data Analysis, Machine Learning

- Built a Logistic Regression classification model to predict personal loan uptake, achieving 95% model accuracy.
- Applied data preprocessing, EDA, and feature selection to identify key predictors driving loan conversion.
- Evaluated model performance using confusion matrix, precision, recall, and F1-score metrics.

MIBOR Rate Prediction using Linear Regression & Decision Tree Model

Technologies: Python, Pandas, NumPy, Scikit-learn, Linear Regression, Decision Trees, EDA, Feature Engineering

- Developed a regression model to predict Mumbai Interbank Offered Rate (MIBOR), achieving 74% model accuracy.
- Conducted EDA to uncover trends and seasonality in financial time-series data.
- Performed feature engineering and rigorous model evaluation to validate performance. (July 2022)

Restaurant Seat Reservation Management System *Technologies: Python, HTML, CSS, Web Development*

- Designed and implemented a web-based restaurant seat reservation system enabling real-time booking andavailability management.
- Built front-end interface with HTML/CSS; integrated back-end logic in Python for reservation handling and datapersistence.

CERTIFICATIONS & TRAINING

- Python for Data Science – NumPy, Pandas, Matplotlib, Scikit-learn (Coursework)
- Basic Statistics for Data Science – Probability, Hypothesis Testing, Distributions
- Fundamentals of Artificial Intelligence – Core AI Principles, Search, and Reasoning
- *(Recommended: Add Google Data Analytics / IBM Data Science / NPTEL AI-ML certificates when obtained)*

INTERNSHIP EXPERIENCE

JSW Steel Limited – Information Technology Intern *Jan 2026 – Apr 2026* •
Completed internship training in the Information Technology Department.

- Learned IT infrastructure, enterprise systems, and industry workflows.
- Worked under the guidance of senior management and gained practical exposure to corporate IT operations.
- Developed professional skills in teamwork, communication, and problem-solving.

RELEVANT COURSEWORK

Machine Learning • Deep Learning (Fundamentals) • Natural Language Processing • Data Structures & Algorithms • Database Management (SQL) • Statistics for Data Science • Artificial Intelligence • Data Visualization

KEY COMPETENCIES

Problem Solving • Analytical Thinking • Team Collaboration • Communication • Self-Motivated Learner • Attention to Detail

DECLARATION

I hereby declare that all information provided in this resume is true and accurate to the best of my knowledge. I am willing to take up challenges and contribute effectively to any organisation that provides me with an opportunity to grow.

Place: Pen, Raigad, Maharashtra **Harsh Dhananjay Patil**
